

The STEINEL DCS is easy to install and easy to program. With no front end needed and packed with standard features, the SDCS is the Smarter Digital Control Solution.

True Presence DCS

As the world's first true presence detector, True Presence identifies micro movements such as breathing.

Digital Control Solution (DCS)

- Digital bus for sensors, switches, photo cells
- 3 independent 20A relays
- Current monitoring per relay
- 3 independent 0-10v dimming zones
- Multi-zone daylighting
- Min. & max. dimming levels
- Receptacle control
- Hold off / Force off
- Out of the box functionality
- Wireless programming
- Predefined & custom use cases
- Preset or custom scenes
- Direct control of Dali fixtures
- BMS integration via BACnet
- Demand response
- Astronomic and time clock functions
- Wireless BLE mesh interconnectivity
