

DID YOU KNOW?

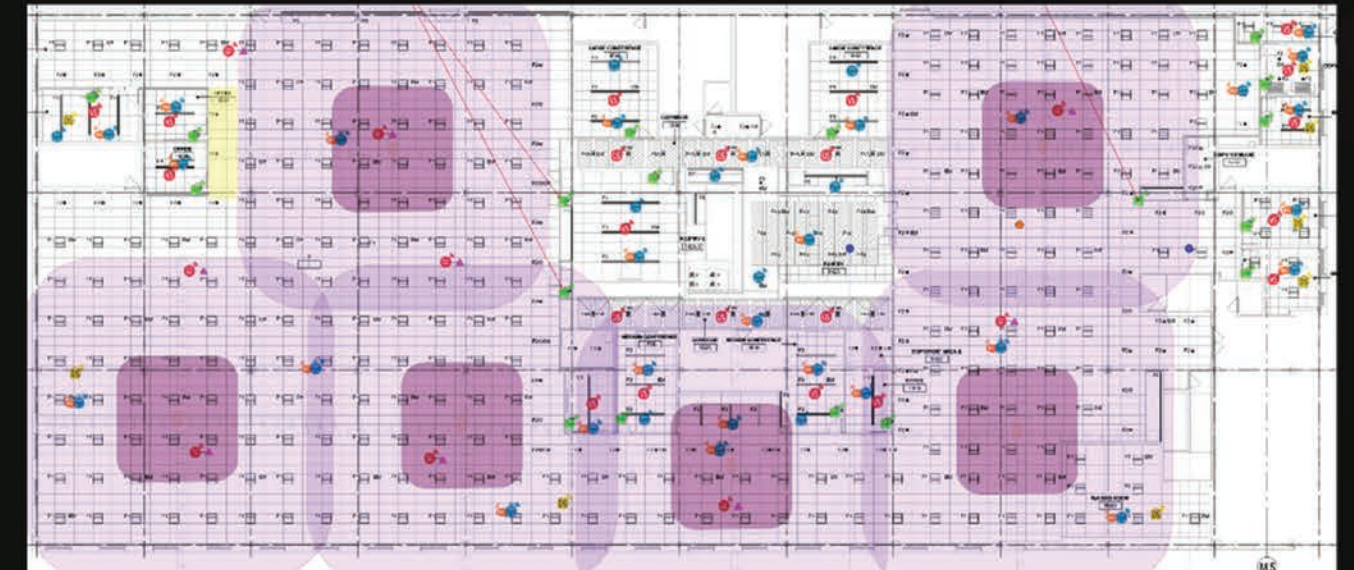

IR QUATTRO HD

With **STEINEL**, you can save money by installing fewer sensors.

- **STEINEL** lighting sensors offer an increased coverage zone, saving money by using less sensors in larger spaces*
- The IR Quattro HD Sensor is **STEINEL**'s high powered, most sensitive sensor on the market with 4800 switching zones compared to the industry average of 50-200
- A square coverage pattern allows **STEINEL** sensors to fit into rooms more efficiently, lessening gaps and blind spots, resulting in fewer "false offs"
- See how the coverage zone of **STEINEL** lighting sensors compares to competitors in these layouts:

Competitor Zone Coverage
16 Active Sensors

Steinel Layout Zone Coverage
6 Active Sensors
