

STEINEL Stand-alone Controls

CODE COMPLIANCE without a Room Controller

ALL THE POWER AT HALF THE PRICE.

STEINEL controls meet all the new codes at a fraction of the price of a room controller. **California Title 24, IECC 2018 and ASHRAE 90.1 2019** can all be covered with our best-in-class control packages.

With our new superduty power packs, DIM-24 and COM2 sensors, you get advanced control capabilities at a lower price point:

- Plug load control
- Multi-zone dimming
- Daylight Harvesting
- Vacancy sensing
- Fail-safe operation
- Independent automatic HVAC control
- Force on and off inputs for BMS integration

Need help with layouts? Trust our tech team to provide cost-effective, code-compliant solutions for applications such as these:

- Classrooms
- Public restrooms
- Warehouses
- Office
- Hallways
- Conference Rooms
- Storage Facilities

Hallway

Code Requirements: Two dimming zones, hallway 100% & 50% output, fail-safe operation.

Description: Sensors turn the lighting on to 100% when occupancy is detected. If the space is unoccupied for a time, the lights dim to 50% or less. After an additional unoccupied period, the lights switch off.

2	TR 200
1	US Hallway DIM-24
1	US Oneway DIM-24
2	MCS Switch

List Price: As low as
\$.30 per sq. ft

Office

Code Requirements: Manual ON automatic OFF of two 0-10V dimming zones.

Description: Sensor turns off both lighting zones when there is no occupancy. Two wall switches provide independent manual on/off and dimming control for each one.

2	TR 200
1	DT Quattro COM1-24
2	ST IP710-LFZ Dimmer switches

List Price: \$326

Classroom

Code Requirements: Manual ON automatic OFF of two 0-10V dimming zones. The zone nearest the window (A) requires daylight harvesting and the zone nearest the entrance (B) requires only manual dimming.

Description: Two sensors turn off both lighting zones when there is no occupancy. The sensor closest to the window provides daylight harvesting, while the other sensor has daylight harvesting disabled. Two momentary switches provide manual ON and dimming to the user.

2	TR 100
2	IR Quattro HD DIM-24
2	Momentary Switch

List Price: \$436
