

DIY vs. Professional STEINEL Heat Tools

High Quality. Better Technology. Safe.

PRESENTED BY STEVE DEREMO

STEINEL: The inventors' company

We think outside the box and

Scrutinize things that are taken for granted

Providing **value-added features and functions** without the additional cost.

With technology invention in our veins, we think **without restrictions** and turn discoveries into **intelligent products** that meet the most exacting of demands.

STEINEL Tools Get the Job Done:

High Quality

Better technology

Maximum Efficiency

Safe

Made by STEINEL.
Made in Europe.

DIY Projects Made Easy

Easy to Use, Versatile Heat Tools

Paint Stripping

Quality, Technology, Efficiency, Safety

STEINEL Tools to Get the Job Done

High Quality

- Made in Europe/Rigorous testing
- Every part is replaceable, easy to maintain

Better Technology

- Programmable heat and cfm output settings
- Most specified tools in the industry

Maximum Efficiency

- Wide range of reduction, spreader, reflector and sieve nozzles for every application

Safety First

- Ergonomically designed
- Flashing LED indicates tool is still hot

DIY

High quality 600 hour brush motor – 20% longer lifetime!

Hot, Hotter temperature control

Ergonomic and lightweight

HL 1820 S

Features for comfortable work

High quality 600 hour brush motor – 20% longer lifetime!

Hanger: integrated work support

Heating element: Ceramic encapsulated

Optimized center of gravity: fatigue-free operation!

Protection: Thermal cut-out

GF 3002 & TM 6000

Better Technology Glue Guns

GF 3002

- Easy to Use, consistent flow
- Die cast aluminum heating chamber for increased volume
- No drip nozzle won't ooze hot glue
- Lightweight, 11.4oz, for long term use.

TM 6000

- Cordless butane powered glue gun
- Rapid 3-minute heat up
- Features removable LEC technology for quick refueling and safe air travel
- Instant glue flow cut off reducing dripping

Electronic precision for experts

-  High quality 600 hour brush motor – 20% longer lifetime!
-  1-hand-operation: thumbwheel temperature setting
-  Nozzles: accepts all standard nozzle
-  Hanger: integrated work support
-  Heating element: Ceramic encapsulated
-  Optimized center of gravity: fatigue-free operation!
-  Protection: Thermal cut-out

HL 2020 E

Ergonomic. Precise. Safe.

High quality 600 hour brush motor – 20% longer lifetime!

Easy access cover: easy and fast change of power cord

Nozzles: accepts all standard nozzle

Heating element: Ceramic encapsulated

Warning on screen in case of heat accumulation

Thermal cut-out, overheat control

350 ESD

Lightweight and ergonomic

"Thermo-Signal" temperature indicator

Compact, lightweight construction

LED light illuminates work area

ESD Safe and designed for comfortable long-term use

HG 2320 E/ESD

The perfect tool for electrostatic-sensitive environments

Pro

HL Scan available as an accessory

Fine Dust Filter available as an accessory

HG 2520 E

Suitable for the most stringent conditions

HG Scan pro available as an accessory

HG 2220 E

Lightweight finishing tool

HG 2620 E

Flagship heat tool
