

Tools for the Automotive Industry

Durable. Efficient. Safe.

PRESENTED BY STEVE DEREMO

STEINEL: The inventors' company

We think outside the box and

Scrutinize things that are taken for granted

Providing **value-added features and functions** without the additional cost.

With technology invention in our veins, we think **without restrictions** and turn discoveries into **intelligent products** that meet the most exacting of demands.

- All tools made in Europe
- Rigorous quality testing
- 10,000 hour brushless motor
- Durable, long-lasting ceramic encapsulated heating element
- Heat precision within 10°
- Every part is replaceable, easy maintain
- E series tools monitored for overheating

Maximum Efficiency

Accessories to Speed Your Process

- Plug and play ceramic encapsulated heating element
- Field changeable power cord
- Work hands-free with the flex stand
- Programmable heat and cfm output settings

HL Scan

Hot, but never too hot!

- Temperature detection at the workpiece
- Visual and acoustic warning signals
- Comfortable one-hand operation
- Emissivity setting: 0.85 / 0.90 / 0.95
- Fits on HL 1820 S, HL 1920 E, HL 2020 E, HG 2320 E
- Available as an accessory

Without HL Scan

With HL Scan

Too hot

At set point

Too cold

Acoustic

Safety First

Protect the Operator and the Material

- Ergonomically designed
- Double insulated tool to prevent electric shock
- Protection tube and Fusion Afterburn tape prevents serious burns
- Flashing LED indicates tool is still hot

HB 1750

The perfect tool for window tinting

High quality 600 hour brush motor – 20% longer lifetime!

High air flow up to 23 cfm

Durable, high-impact outer shell

Plug n' Play heating element

Accessories for hands-free operation

Protective chamber for a safe barrel

Butane Torches

For tight and hard-to-reach spaces

High capacity, commercial-grade butane products for stereo shop installers, mechanics, mobile repair vans and more

TS 600

TS 500 Soldering Iron

TT 175

TT 40

Ultimate Butane Kit

Exceptional Value at Every Price Point

● steinel

Good

High quality 600 hour brush motor – 20% longer lifetime!

Hot, Hotter temperature control

Ergonomic and lightweight

HL 1820 S

Features for comfortable work

 High quality 600 hour brush motor – 20% longer lifetime!

 Heating element: Ceramic encapsulated

 Hanger: integrated work support

 Optimized center of gravity: fatigue-free operation!

 Protection: Thermal cut-out

HL 1920 E

Electronic precision for experts

- High quality 600 hour brush motor – 20% longer lifetime!
- 1-hand-operation: thumbwheel temperature setting
- Heating element: Ceramic encapsulated
- Nozzles: accepts all standard nozzle
- Hanger: integrated work support
- Optimized center of gravity: fatigue-free operation!
- Protection: Thermal cut-out

HL 2020 E

Ergonomic. Precise. Safe.

High quality 600 hour brush motor – 20% longer lifetime!

Heating element: Ceramic encapsulated

Easy access cover: easy and fast change of power cord

Nozzles: accepts all standard nozzle

Warning on screen in case of heat accumulation

Thermal cut-out, overheat control

HG 2320 E

Programmable for total temperature control

Best

HL Scan available as an accessory

Fine Dust Filter available as an accessory

HG 2520 E

Longest-lasting heat tool on the market

HG Scan pro available as an accessory
